EPA has the modeling codes, input and output files that were used in the 17-mi RI and FS.

And a related question, does the RI reflect the information we currently have or an updated version?

**Subject:** Model code...

Hi Rob,

Has the model code that we have, including the inputs and outputs, changed significantly from the version we have? If so, could you please send us revised information prior to submission of the appendices to Section 7 of the RI?

Thanks,  
Stephanie
